OUR GROWING FAMILY

BY CHITRA RAO, HR TEAM

Softrams has come a very long way and shows no signs of slowing down. We are constantly growing, adding new team members every quarter! With great internal growth opportunities and access to the latest technologies, our teams consist of the most talented individuals on the east coast.

How did we get here? In August of 2016, Softrams was awarded its first prime contract from CMS. The team consisted of only 15- 20 team members. It was time to ramp up, quickly! We didn't have much time, but we were able to manage. Today, we now have four prime contracts with CMS along with others!

THE CEO'S MESSAGE

ATCHUT K., CEO

If we look at the theme of every single project, Softrams is saving an incredible amount of dollars to the Medicare Trust Fund. How is that so?

"...THERE ARE FOUR PARTS TO OUR CULTURE. PEOPLE, PROCESS, PRODUCT AND PRACTICES. WE WANT PEOPLE WHO CAN SOLVE COMPLEX PROBLEMS WITH SIMPLE SOLUTIONS..." CEO, ATCHUT K.

Over the years, Softrams has created its own runway. Any company can innovate, have a better vision and ideas, but they need to have a runway to implement and execute those ideas. Our team opportunities are abundant and the people are great!
